WELCOME TO **SPETECH®**

THE NAME TO TRUST IN FIELD OF SPECIAL GASKETS & PACKINGS
FOR HIGH PERFORMANCE APPLICATIONS

SPETECH® has been in the industrial sealing systems sector for 30 years. Through all this time we've been collecting experience and supplying our products to more than 100 countries around the world. We believe that high quality products can only be manufactured with highest care taken during whole process of production. That is why our manufacturing centre is situated in Poland. European standards and regulations ensure the quality and readiness of our high duty products.

Our **Special Seals** program includes most sophisticated profiles like: **Weld Ring Gaskets, Lip Seals, Metal Diaphragms, Baffle Seals, Double Cones, Lens Gaskets, Offset Seals** and many others. Typically these sealings secure tightness of various types Pressure Vessels: **Heat Exchangers, Reactors, Air Coolers, Tanks, Towers, Valves** and similar items. The experience which we collected means we are capable of managing any serious sealing challenge which one can face: **High Pressure, Cryogenic Environment, High Temperature, Corrosion, Vibrations, Axial or Lateral Flange Movements.**

All above bespoke sealings are our key specialty. Next time if you seek a gasket made from special alloy, a seal to be supplied with special approvals, packing delivered in a short time or you simply need any other high duty sealing solution – check out our production program and send us an enquiry about your requirements. **Our Special Gaskets and Packings are ready to secure your application.**

Grzegorz Rusak
Managing Director SPETECH®

SPETECH® GASKETS DESIGNED FOR CHEMICAL APPLICATIONS

Seals in PTFE Envelope • Lens Gaskets •
Modified PTFE Seals • Gore-Tex® Sealants
Self Energized Seals • Gaskets with PTFE
Insert • Double Cone Gaskets with Layers
• Lens Gaskets with Branches • Weld Lip
Seals • Metal Diaphragms • Kammprofiles
• Seals from Silver • Nickel • Titanium and
Tantalum Alloys

ENSURE SAFETY OF PRESSURE EQUIPMENT IN OPERATION:

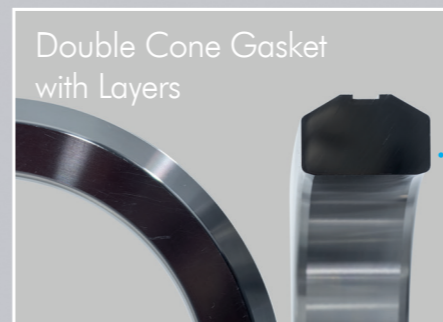

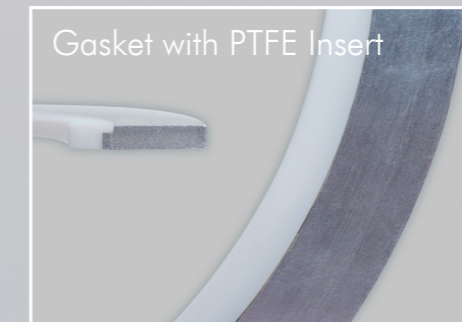

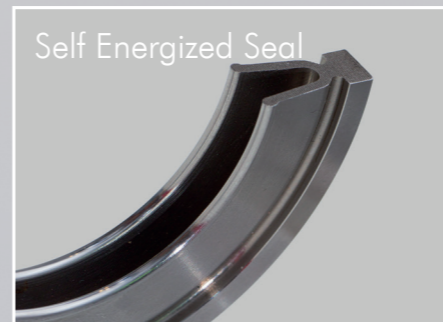

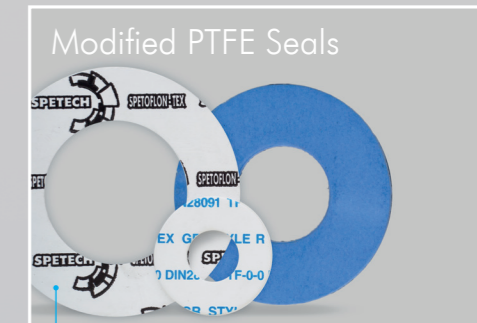

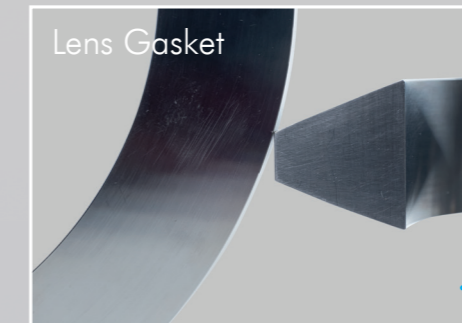

Process Towers • Autoclaves • Scrubbers •
Strippers • Absorbers • Evaporators Chemical
Reactors • Separators • Preheaters • Air
Coolers • Storage Tanks • Enamelled Vessels
• Distillation Columns • Heat Exchangers
• Pipelines • Pumps and Valves

SECURE TIGHTNESS AGAINST DANGEROUS & CORROSIVE FLUIDS

Ammonia • Nitric Acid • Ammonium
Nitrate • Urea • Nitrogenous Fertilizers
• Syngas • Phosphoric Acid • Phosphatic
Fertilizers • Melamine • Methane •
Methanol • Hydrogen • Hydrochloric Acid
• Potassium Fertilizers • Sulfuric Acid •
Sulphur Di&TriOxide • Xylene • Toluene •
Oxygen
